

International Journal of Environmental Science and Development

CONTENTS

Volume 10, Number 10, October 2019

- Accurate Prediction of Streamflow Using Long Short-Term Memory Network: A Case Study in the Brazos River Basin in Texas294
Hamidreza Ghasemi Damavandi, Reepal Shah, Dimitrios Stampoulis, Yuhang Wei, Dragan Boscovic, and John Sabo
- Optimization of Supercritical Fluid Extraction of Hydrocarbons from a Contaminated Soil: An Experimental Approach301
Abdulrazag Y. Zekri, Ali H. Al-Marzouqi, Adel A. Azzam, and Abdulrahman Y. Alraeesi
- Multi-criteria Site Selection and Assessment of Ports in the Northwestern Coast of Egypt: A Remote Sensing and GIS Approach310
Salwa F. Elbeih, Sameh B. Elkafrawy, and Wael Attia
- Mathematical Description of the Flows near the Bottom of the Ocean.....321
A. Giniatoulline
- Planulation in the Scleractinian Coral *Pocillopora damicornis* in Singapore Waters326
L. M. Chou, B. P. L. Goh, and S. T. Quek
- Simulated Biosorption of Cr⁶⁺ Using Peels of *Litchi chinensis sonn* by Aspen Adsorption® V8.4.....331
Aileen D. Nieva, Ronnel C. Garcia, and Ren Mikhail R. Ped
- People and Environment: A Quantitative Analysis of Attitudes and Behavior toward Media of Urban Green Spaces338
Worawan Ongkrutraksa
- Preparation of Particle Reusable Heterogeneous Catalyst Fe₃O₄/ATP for Methylene Blue Decolorization343
Ting Zhang, Chunyuan Qian, and Lingyu Dong
- Development and Performance Evaluation of a Grain Probe Moisture Meter for Paddy350
Arlene C. Joaquin, Maria Elizabeth V. Ramos, and Romualdo C. Martinez
