

International Journal of Environmental Science and Development

CONTENTS

Volume 9, Number 4, April 2018

- An Optimized Pyrolysis Technology with Highly Energy Efficient Conversion of Waste Plastics into Clean Fuel While Substantially Reducing Carbon Emission.....95
Gordon Yu, Chih-Young Hung, and Isaac Hung
- Review of the Status and Treatment Method of Organic Waste in Korea 100
Hee Jung Kim, Ji Ye Yoo, and Chan Jin Park
- Discovery of Reduction in Photosynthesis Correlation to Carbon Dioxide Increase 106
Dave White C. E.
- Nurturing a Sustainable Earth System in the Age of Science and Technology: From Francis Bacon's Conquest of Nature to Albert Schweitzer's Ethics of Reverence for Life 110
Choy Yee Keong
